Re: RCRA Closure of Building No. 5 at Columbia Business Park
EPA ID No. WAD 09289 0342

Dear Mr. Hardesty:

This is in regards to the petition you submitted pursuant to 40 C.F.R. § 270.1(c)(5) for a determination by the United States Environmental Protection Agency (EPA) that in closing the above referenced facility you have met the standards for closure by removal or decontamination.

In accordance with 40 C.F.R. § 270.1(c)(6), the public was notified of the opportunity to comment on the petition by notice published in the Vancouver Columbia, on November 12, 1990. The comment period expired on December 12, 1990, without comment or request for a public hearing.

EPA has reviewed the petition and determined, in accordance with 40 C.F.R. § 270.1(c), that the closure activities conducted at the above referenced facility met closure by removal or decontamination requirements under 40 C.F.R. § 264.258. Therefore, the facility is not subject to post closure permitting requirements under the Resource Conservation and Recovery Act, 42 U.S.C §9601 et seq. However, you should be advised that state requirements may still apply.

This determination is based on the petition and its attachments. If these documents fail to disclose all relevant facts, or misrepresent relevant facts, that shall be grounds for termination or modification of this determination.

If you have any questions regarding this matter, please contact Jack Boller of my staff at (206) 753-9428.

Sincerely,

A handwritten signature in cursive script that reads "Dana A. Rasmussen".

Dana A. Rasmussen
Regional Administrator
